

Please do not adopt Federal Legislation that would diminish a current State Law in Indiana. Indiana has a very strong No-Call Law for solicitors, and relaxing those laws will violate my right to privacy. Federal law that is less than Local Law is an injustice to not only Indiana citizens but to all Americans. If the Federal Government must pass a law of this nature for all of America, please pass one that mirrors Indiana's Law. Don't let PAC's control the government.
Thank You
